Education

Government College University Faisalabad <i>Bachelor of Science in Computer Science</i>	Faisalabad, Pakistan 2022 - 2026
Punjab Group of College Jhang Road Campus <i>Intermediate in Computer Science</i>	Faisalabad, Pakistan 2019 - 2021

Professional Experience

AMAL ACADEMY Education startup funded by Stanford University that teaches professional skills to students and corporations Career-Prep Fellow	Faisalabad, Pakistan April 2026 – Present
– Completed a competitive written application and interview process to be selected from over 4,500 applicants for intensive 3-month Fellowship funded by Stanford University – Investing 150 hours in order to develop business skills (e.g., communication, leadership, problem solving, teamwork, etc.) that will help me make a deeper impact on the job	

Meshlogix Solutions Meshlogix Solutions is a technology services firm that specializes in custom software, mobile and web application development, AI/ML integration, and staff augmentation AI Developer	Lahore, Pakistan Feb 2025 – Jan 2026
– Engineered automated data ingestion pipelines for large-scale AI models using Python, streamlining the preparation of high-dimensional datasets for model training. – Implemented Retrieval-Augmented Generation (RAG) architectures and Vector Embeddings utilizing Supabase to improve semantic search accuracy and context retention in intelligent systems.	

Academic Experience

LULC Classifier Dashboard A professional ML system designed for high-fidelity land use and land cover classification from satellite images.	Faisalabad, Pakistan
– Engineered a high-performance LULC Classifier dashboard using Next.js, FastAPI, and PyTorch to classify satellite imagery from benchmark datasets like EuroSAT and MLRSNet, optimizing system efficiency through model caching and modular pipelines to reduce inference latency and enhance model transparency via Explainable AI (XAI) visualizations	
AI Startup Idea Validator & Co-Founder Agent An analysis of your startup idea market research, financial projections, competitive landscape, and a go-to-market strategy all powered by AI.	
– Architected AI Startup Pakistan, an AI-driven startup validation platform, by leveraging Next.js 15, TypeScript, and Google Gemini 3.5 Flash to deliver deep market analysis and provincial opportunity scoring for entrepreneurs, ensuring high performance and secure data persistence via Supabase RLS.	
NoteHub - AI Study Assistant NoteHub revolutionizes the way students learn from online video content. It automatically extracts transcripts from YouTube videos and uses Gemini Pro to generate comprehensive study materials	
– Designed to automate YouTube transcription and study material generation, streamlining learning workflows with interactive quizzes and progress visualization to improve student subject retention.	
AI Medical Consultant An intelligent web-based assistant designed to provide conversational support for medical queries, featuring a modern Next.js frontend and robust FastAPI backend	
– Architected a conversational AI Medical Consultant utilizing Next.js, FastAPI, and LangChain to orchestrate LLM-driven reasoning and RAG pipelines, delivering high-accuracy medical query processing and secure real-time session management via Firebase	

Certifications and Online Courses

Certifications

- Artificial Intelligence & Computing Presidential Initiative for Artificial Intelligence & Computing (PIAIC)
- Saylani Welfare Trust Web and Mobile App Development

Online Courses

- Advanced Artificial Intelligence (Xevens Solutions)
- Transformer Architecture (Deep Learning)

Additional

- *Technical Skills:* Python, C++, NextJS, LangGraph, Langchain, OpenAI SDK , React Native , Deep Learning , Computer Vision Architectures, Supabase , Firebase , MS Office, Streamlit,
- *Interests:* Technology, Artificial Intelligence, Computer Vision, Classics Book, Philosophy
- *Language:* English,Urdu
